EVERYONE DESERVES THEIR OWN NOTEBOOK

PROFESSIONALS

Everyone who has a job to do deserves great work tools. So the OXFORD Office range brings smart OXFORD design, quality and features within reach of all. There is several looks to please every individual taste and style. Sturdy features like double spiral binding bring business-like reliability to every desk. And for people on the move, they can choose from attractive notebooks with more robust covers. Freedom of choice is a given. Because we believe people can be professional in many different ways.

STUDENTS

When young people move up to the more serious world of further education, they're ready for a gear change. They're ready for purpose-designed tools to help them do everything better. To be better organised, to take better notes, and store them in smarter ways, just like the professionals on the move that they inspire to become. It's a brilliant time to be a student.

EXECUTIVES

For professionals who insist on a top performance product to help them perform each day. OXFORD means business. The OXFORD Internationnal notebook range has long been a favourite of high flyers in a business academia. Ingenious design and countless useful features come together to deliver a better way to stay organised, and to optimise notetaking. Likewise, the Black'n Red range is synonymous with peak professionalism on the UK business scene. As substantial as a book, the notes are here to stay.

SCHOOL

Most schoolkids need a lot of exercisebooks. From a practical point of view, we've got them covered. But schoolkids also love colour and expressing individuality. Likewise, OXFORD has the answers. With OXFORD, tomorrow's adults learn the value of quality from Day One.

PERSONAL

For those special times when people are not working or studying. OXFORD has listened. One example is the OXFORD Signature range, an irresistible selection of notebooks destined to become the very personal companion of each owner. Thoughtfully designed to offer plenty of space for free expression, and clever pockets for keepsakes, these handsome objects encourage you to keep whatever is most precious together - especially your own unique ideas. Descreet features like an elastic band help to hold that thought.
